Your Networks!

The amazing thing about the support group is, you would already be surprised how many amazing fundraising networks you have between you all. It might be the company you work for, the celebrity who lives next door to you or even those down at your local pub!

We ask that you think about any networks you have that you might be able to introduce us to, so we can help you to support the Young Onset Dementia Support Group. A good place to start is definitely your employer- do they have a grants or community scheme? Do they provide matched funding?

Your local community

Again, this is another great thing about the support group- we can tap up contacts in your local communities!

Do you live near a Waitrose and would be happy to apply for the Waitrose Community Scheme on our behalf? Does your local pub allow you to put up a poster? Or have a collection tin on the bar? Would your local takeout be willing to put flyers in every order?

Get creative and let us know, as we can support on all local community fundraising activities and provide you with all the materials you need.

Share, share, share!

Most importantly, we need to get the message out to as many people as possible, that we are fundraising for such an amazing cause. The power of social media is greater than ever and we ask that you tag us in anything you share! Below, we have listed some important links for you.
