

## ST GEORGE'S YOUNG ONSET SUPPORT GROUP

The next St George's Young Onset Support Meeting will be on

Thursday 26<sup>th</sup> May at 7-9pm

We will be revealing the poem created especially by poet Laurence Wilson using words from the group at the March meeting.

As we also have many new members, we will be dedicating plenty of time in the evening for socialising and peer support.

This is a friendly and supportive group that meets monthly (the last Thursday of each month) giving opportunity to meet others in similar situations and gain information and support. The group is open to those under 65 with a diagnosis and their family care partners.

The meeting will take place in the John Parker Lecture Theatre (just to the right of Neurology Outpatients in the Atkinson Morley Wing)
